

The software is easily accessed and viewed with the use of a web browser such as Internet Explorer or Mozilla Firefox. Once logged-in, the administrators have access to detailed graphs, charts, and reports, of performed transactions. The admin panel is also used to setup users and configure the server. Each server offers great flexibility and can be configured to fit particular pharmacies needs and requirements. For example, some servers may be configured in a very strict manner in order to track and control all users who perform transactions, whereas other servers may be configured more freely where users are not required to log in, and the server is mainly used for sharing drug data and information.

The screenshot displays the DRX-SSX SYSTEM administrative interface. At the top, there is a navigation menu with links for Status, Reports, Users, Backup, Update, Config, and Database maintenance. Below this, a secondary menu highlights 'Scalix', 'Server', and 'Database'. The main content area is divided into several sections:

- Networking and IP Configuration:** Shows 'Public port IP Address: 192.168.1.199' with 'Automatic' and 'Manual' buttons. Below it, 'Private port IP Address: 192.168.138.1' and 'Scalix listening port: 1000' with a 'Set' button.
- Security Rules:** Contains four checked checkboxes: 'Allow scalix to connect on public ports', 'Allow anonymous login', 'Allow API Update by Anonymous users', and 'Allow transaction aborting'.
- Transaction Reports:** Features two 'Delete' buttons. The first is next to a dropdown menu set to '6 months'. The second is next to the text 'Delete all transaction report logs'.
- Report Tab View:** Lists several columns with checkboxes: 'Display LOT Column' (unchecked), 'Display Strength Column' (checked), 'Display User Column' (checked), 'Display Rx Size Column' (checked), 'Display Verification Column' (checked), 'Display Unit Name Column' (checked), and 'Display Unit ID Column' (checked).
- SMTP Configuration:** This section is partially visible at the bottom of the screenshot.
