

## Counting Transaction Receipt Printing

Tuesday, 19 August 2008 17:10 - Last Updated Friday, 29 April 2011 13:36

---

This feature allows the user to print a record of a performed counting transaction. The printed receipt indicates the date and time of the performed transaction as well as the NDC code, average pill weight, and actual count. The printed receipt may be used as a logging tool for the counting feature.

```
10-20-2007  1:33 PM
NEW  SAMPLE
AVG. PILL WT.      0.500  g
PILL COUNT        10  PCS
```
